Innova Invest Program
Favorable tax regime.

Spain’s advantageous tax regime for R&D&i is highly valued by multinationals when relocating their research and development activities here. (Barometer of the Business Climate in Spain).

Contribution of foreign companies.

“Multinational companies contribute to the industrialization of the country and invest heavily in the creation of centers of excellence and innovation; they are responsible for 38.4% of the investment in R&D&i in Spain.

Quality of proposals developed in Spain.

Spain ranks fourth among EU countries in European funding received for innovation projects. (2020 horizon).

Progress in R&D.

Spain has enjoyed four consecutive years of growth in investment in R&D. (National Statistics Institute).
