Call sheet for specific
aid for the sector

This guide focuses primarily on collecting information addressed to the agri-food industry sector, with the intention that it will be useful for the identification of aid to the sector.

PART I: DOCUMENT' STRUCTURE

This document gathers the initiatives of support and incentives directed to the agri-food industry sector.

Part II of the document includes a **list of specific aids for the sector**, distinguishing between possible topics, in which each call is identified, and subsequently, in the corresponding section, each one is developed in greater depth. You can access the detail of each help from the **Call Sheet**.

As a complement to the previous information, information has been collected taking into account the geographical coverage of the aid, at levels:

- European.
- State.
- Regional.

In **Part III of the document**, the aids available for the agri-food industry sector are presented, whose application period is open at the time of writing of this monograph, as well as a series of grants for which there is a forecast of new calls even when they are not open at the time of this publication, indicating the consultation links in which said information will be available for once they have been published.

To do this, **an individual file has been created for each of the aids identified**, which can be consulted one by one. The content of each sheet is structured as follows:

Name of the call

The name of the call in question is included.

Purpose of the aid

It details in a timely manner the purpose for which the aid was intended and what problems or challenges are intended to be solved or addressed.

Type of help

Specifies the financial mode that governs the help. For example, in the case of non-refundable grants, loans, or even if it is possible to combine both alternatives or some other modality.

Beneficiaries

It refers to the type of entities that may submit applications: consortia and associations of companies, individual entrepreneur, mercantile society, others (universities, technological or research centers, public administrations, non-governmental organizations, etc.).

Description of the help

It includes a more detailed description of the aid and the concepts and actions it finances. It also contains summary information on the requirements and characteristics that must be met by the projects that are financed within it.

Term of validity of the call

It temporarily delimits the deadline for submitting applications, indicating the start and end date of the call, as well as identifying whether the call is a single stage or if it consists of several cuts (multiple cut-off).

Link for more information

It refers to the link of the rules of the call, so that those interested in obtaining more information can consult it. ([Bases](#), [Call](#), etc.).

PART II: CLASSIFICATION OF CALLS

Part II.A. Specific aid for the sector, ordered by the end of the call date

PART III: INFORMATION SHEETS OF CALLS

Specific support for the agri-food industry sector

Aids 2019-2023 for investments in the wine sector. (1778)

Purpose of the aid

The aid aims to improve the overall performance of companies in the wine sector and their adaptation to market demands, as well as increase their competitiveness.

Operations relating to tangible or intangible investments in wine processing and infrastructure facilities, as well as in marketing structures and instruments, may be eligible for subsidization, including to improve energy saving, global energy efficiency and sustainable processes.

Type of aid

Grant

Beneficiaries

Individual holder - Corporation

Description of the aid

The following concepts are financed:

- a) Construction, acquisition or improvement of real estate.
- b) Purchase of new machinery and equipment up to the market value of the product.
- c) General expenses linked to the expenses foreseen in letters a and b, such as, for example, fees for architects, engineers and consultants, as well as feasibility studies.
- d) The acquisition or development of computer software, the acquisition of patents, licenses or copyrights and the registration of collective trademarks.

Term of validity of the call

A total of 5 Calls are contemplated, for which the following deadlines have been set:

- For the first call, corresponding to the year 2018, it begins the day following the publication of this Resolution in the BOIB and ends on April 13, 2018;
- For the second call, corresponding to the year 2019, it begins on April 14, 2018 and ends on January 31, 2019;
- For the third call, corresponding to the year 2020, it begins on February 1, 2019 and ends on January 31, 2020;
- For the fourth call, corresponding to the year 2021, it begins on February 1, 2020 and ends on January 29, 2021;
- For the fifth convocation, corresponding to the year 2022, it begins on February 1, 2021 and ends on January 31, 2022.

H2020 (2014-2020). Retos sociales - Seguridad alimentaria, agricultura sostenible, investigación marina y marítima y bioeconomía

Purpose of the aid

The H2020 program finances R & D projects related to various topics, depending on the objectives and priorities set for each European programming period.

The priority of Social Challenges, with a budget of more than 29,679 million euros, responds directly to the political priorities and social challenges identified in the Europe 2020 strategy and is intended to stimulate the critical mass of research and innovation effort needed to achieve the policy objectives of the European Union. This priority consists of the following challenges:

- Health, demographic change and well-being;
- **Food security, sustainable agriculture, marine and maritime research and bioeconomy;**
- Safe, clean and efficient energy
- Intelligent, ecological and efficient transport
- Climate action, efficiency in the use of resources and raw materials
- Europe in a changing world, inclusive, innovative and reflective societies
- Secure societies, protecting the freedom and security of Europe and its citizens

Type of aid

Grant

Beneficiaries

Consortia and partnership - Others

Description of the aid

For more detailed information regarding these grants, it is recommended to consult the **monograph H200**, published previously, which although the aid files may be obsolete, has an introductory first part to the requirements and description of the program.

Term of validity of the call

There is no call with an open term at the time of publication of this document.

However, future calls can be consulted in the following [link](#).

The **following filters should be applied** from the left area of the screen:

- Filter by programme (only for grants): H2020
- Filter by programme part: Food security, sustainable agriculture and forestry, marine and maritime and inland water research and the bioeconomy
- Filter by submission status: open / forthcoming.
