ICEX Spain Trade and Investment, through the Invest in Spain department, carries out activities and services designed to attract foreign investment to Spain through five major lines of work:

- Attracting direct investment projects from foreign companies, mainly of the greenfield type in manufacturing, technology and services.
- Aid for the international funding of Spanish companies, particularly SMEs. Access to international financial investors for Spanish companies, with especial emphasis on SMEs.
- Promoting Spain as a global platform for investment.
- Enhancing the business climate in Spain and fostering competitiveness.
- Managing two technology and innovation development support programmes.

3. Access to international financial investors for Spanish companies

3.1. Investors Network

This instrument matches international investors seeking investment opportunities in Spain with Spanish companies seeking a strategic international partner. This matching provides Spanish companies and foreign companies with operations in Spain with access to international private finance, through investment funds, institutional investors, investment banks, corporate finance, private equity, venture capital, business angels etc.

- 216 matches have been made between international investors and Spanish companies.
- 99 new Spanish companies have been added to the network.

3.2. Meet Investors programme

During 2019 we have coordinated the participation of 25 Spanish start-ups in four international events in which the companies had the opportunity to pitch their projects and hold meetings with international investors, have their profile listed in the booklets and on the event websites, and attend the workshops and talks.

- World Congress of Angel Investors | 18-20 February | Istanbul
- Mipim Proptech | 1-2 July | Paris
- EBAN | 3-4 July 2019 | Heksinki
- Mipim Proptech | 12-13 November | New York

4.1. Grant programmes

For investments in R+D activities by foreign companies

ICEX-Invest in Spain has been managing ERDF funds since 2008, which have contributed to anchoring high technological and R&D investments by foreign companies. Since the start of the programme in 2008, over 230 projects have received funds, resulting in the creation of more than 2,000 jobs, and leveraging an investment of over 88 million euros.

In the 2019 call:

- 44 applications were received for projects in the Canary Islands (12), Galicia (10), Castile-La Mancha (8), Extremadura (8) and Murcia (6), representing an investment of eight million euros and associated employment of 400 highly-qualified workers.
- The sectors with the greatest number of applications are: information technologies (ICT) (29%), biotechnology and health sciences (19%), industrial (15%), agrifood (12%) and automotive (10%).
- According to the origin of the capital invested, grantee projects come predominantly from France (16%), Germany (13%), Canada (13%) and Switzerland (7%).
- After the application assessment process, grants were awarded to 27 projects: Galicia (7), C-La Mancha (7), Extremadura (6), Murcia (4) and the Canary Islands (3).

4.2. Rising UP in Spain

Formerly known as Rising Startup Spain, this is a talent and foreign entrepreneurship attraction programme that offers acceleration and soft-landing services. In total, the four calls of the program since 2016 have received 1,050 applications from 84 countries.

In this first year of Rising UP in Spain, 205 projects have applied, out of which 15 will join the 40 winners of the previous three editions.
